AGENDA ITEM 4/1

ITEM:

CONSIDERATION OF STAFF RECOMMENDATION ON THE ADEQUACY OF THE SOURCE REDUCTION AND RECYCLING ELEMENT FOR THE COUNTY OF COLUSA AND THE CITIES OF COLUSA AND WILLIAMS

I. SUMMARY

The County of Colusa and the cities of Colusa and Williams submitted a multi-jurisdictional Source Reduction and Recycling Element (SRRE). Source reduction, recycling, public education, and green waste to composting are the major components used to achieve the diversion goals. The unincorporated County of Colusa projects diversion for 1995 as 84.8 percent and 83.6 percent for 2000. The City of Colusa projects diversion for 1995 as 14.7 percent and 30.7 percent for 2000. The City of Williams projects diversion for 1995 as 7.1 percent and 26.2 percent for 2000.

II. PREVIOUS COMMITTEE ACTION

The Board granted a Petition for Reduction in the 1995 goal to 18 percent to the City of Colusa in September 1994, and a Petition for Reduction in the 1995 goal to 15 percent to the City of Williams in November 1994.

III. OPTIONS FOR THE BOARD OR COMMITTEE

A. Approve the SRRE for the Unincorporated County of Colusa, and disapprove the SRRE for the cities of Colusa and Williams.

- B. 1. Approve the SRRE for the Unincorporated County of Colusa; and,
2. Conditionally approve the SRRE for the cities of Colusa and Williams with the stipulations being that the jurisdictions either: 1) form a regional agency, or 2) petition for a reduction in their 2000 goal by August 1, 1998; and file their first annual report by August 31, 1998.

IV. STAFF RECOMMENDATION

Staff recommends option B: Approve the SRRE for the Unincorporated County of Colusa, and conditionally approve the SRRE for the cities of Colusa and Williams with the stipulations noted above.

V. ANALYSIS

UNINCORPORATED COUNTY

SWGS ANALYSIS:

| SRRE ADEQUACY | YES | NO |
|--|-------|----|
| CIWMB draft comments adequately addressed | X | |
| Meets SWGS criteria (in CIWMP Adequacy Report) | | X |
| 1995 corrected diversion projection is 25% or more | 84.8% | |
| 2000 corrected diversion projection is 50% or more | 83.6% | |

Explanation of any "No" responses:

Diversion Tonnages: No documentation for restricted material has been submitted. Staff has therefore subtracted 62 tons of restricted material from the base-year, 1995, and 2000 diversion and generation.

Disposal Tonnages: Disposal tonnage provided was not accurate. Hazardous waste is not "normally disposed". Staff has therefore subtracted 33 tons of non-residential hazardous waste from the base-year, 1995, and 2000 disposal and generation.

CITY OF COLUSA

SWGS ANALYSIS:

| SRRE ADEQUACY | YES | NO |
|--|-----|-------|
| CIWMB draft comments adequately addressed | X | |
| Meets SWGS criteria (in CIWMP Adequacy Report) | | X |
| Board-reduced 1995 diversion projection is 18% or more | | 14.7% |
| 2000 diversion projection is 50% or more | | 30.7% |

Explanation of any "No" responses:

Diversion Tonnages: Diversion tonnage provided was not accurate. Hazardous waste cannot be counted as diversion. Staff has therefore subtracted 2 tons of hazardous waste from base-year, 1995, and 2000 diversion and generation
